CORE SKILLS

- **Technical Skills (Hard Skills):** Software Engineering Processes, Full-Stack Web Development, Database Modeling & Optimization, Machine Learning.
- **Professional Attributes (Soft Skills):** Problem-solving, Effective Communication, Teamwork & Collaboration, Adaptability, Fast Learner, Time Management under tight deadlines.

PROFESSIONAL EXPERIENCE

Junior Software Developer

February 2026 – Present

EngeGOV – Public Works Governance & Systems

- Perform Full-Stack web development specializing in enterprise Java Web applications.
- Debug complex issues and implement new robust features aligned with system requirements.
- Design and optimize relational database components and queries using MySQL.
- Create, modify, and maintain custom operational reports using Java, iReport (Jasper Reports), and SQL.

Technologies: Java (Java EE), JavaScript, MySQL, iReport, Jasper Reports, SQL.

Software Engineering Intern

June 2025 – January 2026

EngeGOV – Public Works Governance & Systems

- Contributed to the full development lifecycle of Java Web management platforms.
- Assisted in bug fixing, legacy code refactoring, and rolling out new system features.
- Constructed database tables and handled relational queries using MySQL.
- Developed dynamic business reports tailored to client needs using iReport.

Technologies: Java (Java EE), JavaScript, MySQL, iReport, Jasper Reports, SQL.

EDUCATION

Bachelor of Computer Science

2021 – 2025

State University of Western Paraná (Unioeste) – Cascavel, Brazil

- **Academic Distinction:** Graduated 1st in the class of 2025 (Honorable Mention / Valedictorian equivalent).
- **Key Coursework:** Programming (C, C++, Java, Python, JavaScript), Software Engineering Processes, Machine Learning, and Relational Databases.

Technical Degree in Information Technology

2017 – 2020

Federal Institute of Paraná (IFPR) – Cascavel, Brazil

- Integrated with High School education. Covered software logic, programming fundamentals (Python, Java), and basic databases.

ACADEMIC LEADERSHIP & RESEARCH

Fellowship Member – PETComp (Tutorial Education Program)

2022 – 2025

Federal Government Excellence Initiative (MEC)

- Engaged in a tripartite program focusing on Teaching, Research, and Community Outreach under academic guidance.
- Cultivated key soft skills, notably leadership, agile project management, and public speaking.
- Served as an Academic Tutor for the Introduction to Algorithms course, mentoring undergraduate peers.
- Actively participated in major conferences: Latinoware (2022, 2023, 2024) and ERAD/RS (2022, 2023, 2024).

Undergraduate Scientific Research Projects

2022 – 2025

- **Research Scholar (2022 – 2023):** *"Training and Practices with Computational Thinking and Digital Technologies for Mathematics Educators"*. Paper published in the Annual Scientific and Technological Initiation Meeting (EAICT-Unioeste).
- **Research Volunteer (2024 – 2025):** *"Unplugged Turing Machine: Practices for the Development of Computational Thinking and Mathematics Teaching"*. Paper published in EAICT-Unioeste.
